

Register Your Tsunami Preparedness Activities at TsunamiZone.org

Welcome to the TsunamiZone!

Everyone, everywhere should know how to be prepared for tsunamis and what to do to be safe. This is true for people who live or work near the ocean, but also for anyone who may visit someday. Are you in the Zone?

TsunamiZone.org provides suggestions and resources for your family or organization to "know your zone" and to learn how to be safe.

You are invited to participate in tsunami educational activities and drills that take place throughout the year. Be counted among people and organizations worldwide by registering your tsunami preparedness activities for this year!

Here are suggestions for what you, your organization, and your community can do to learn more and be better prepared:

- Attend a publicly organized tsunami walk drill
- Organize your own tsunami walk drill
- Participate in a boat evacuation drill
- Attend a lecture at a museum or aquarium
- Put together a preparedness kit
- Make a family plan
- Establish an out of town contact
- Participate in a work-related tsunami exercise
- Attend a commemorative event
- Retweet tsunami preparedness info
- Participate in a school evacuation drill
- Watch a tsunami preparedness video
- Print out a map of your evacuation zone

As a registered TsunamiZone Participant you will:

- Learn what you can do to get prepared
- Receive TsunamiZone news and preparedness tips
- Be counted as a participant on the TsunamiZone website!
- Set an example that motivates others to participate and prepare

How To Participate

Register at TsunamiZone.org/register to be counted with other participants, be listed on the website (optional), be an example to others, and to get e-mail updates.

Find public events you can attend at TsunamiZone.org/calendar (if you are an event organizer, add your own!)

Visit TsunamiZone.org/howtoparticipate to learn how to be better prepared to survive and recover quickly when a tsunami occurs!

TsunamiZone.org/resources has planning documents, posters, graphics, and other materials to support your activities.
