How to Plan:

- Know your zone! Get maps for your area at [TsunamiZone.org/knowyourzone](http://TsunamiZone.org/knowyourzone).

- Draw potential evacuation routes, starting in a tsunami danger zone and ending in a tsunami safe zone. Follow existing tsunami signage if present.

- Engage local leaders, family, friends, and/or co-workers (elected officials, emergency managers, CERT or Red Cross chapters, science organizations, schools, etc.). Together with them, decide:
  - Date, time, and agenda for the event.
  - Final walking route (start, end, and duration).
  - Inclusivity (language, disability, mode of transportation).
  - How to promote (calendars, social media, email, and flyers).

- Register your community’s participation at [TsunamiZone.org/register](http://TsunamiZone.org/register). If it will be open to others, submit it to the TsunamiZone.org events calendar at [TsunamiZone.org/calendar](http://TsunamiZone.org/calendar).

Additional Considerations:

- Consider adding lectures, concerts, contests, or a fair and expo.
- Along the route, mark directions and sights of interests, put up educational signs, and engage with participants.
- Accommodate those who have disabilities and speak other languages.
- Visit [TsunamiZone.org/howtoparticipate](http://TsunamiZone.org/howtoparticipate) for other ideas.
